REASONS FOR ALLOWANCE

Response to Amendment

The After-Final Amendment filed November 14, 2005 has been received and made of record. In response to the Final Office Action, claims 1, 4, and 7 have been amended. Claims 3, 6, and 9 have been cancelled.

It is additionally noted that claims 3, 6, and 9 were previously objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Allowable Subject Matter

Claims 1-2, 4-5, 7-8, and 10-15 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1-2, 4-5, and 7-8, the prior art is not found to teach or fairly suggest, in combination with the existing elements of the present claim as currently amended, blur detection which is performed using pixel data read out in a destructive manner before a main exposure and in a nondestructive manner during said main exposure.

Regarding claims 10-15, the prior art is not found to teach or fairly suggest, in combination with the existing elements and limitations of the present claims or of claims from which dependence is derived, reading out of data of pixels in a nondestructive

Art Unit: 2612

manner during an exposure, said pixels being contained in a block of small area among all pixels of an image pickup element which can read out pixel data in a nondestructive manner, performing noise cancellation processing to pixel data of said block obtained by reading out in a nondestructive manner with reference to a table of a fixed pattern noise corresponding to pixels contained in said block, adding pixel data from which said fixed pattern noise is eliminated to said pixels contained in said block, and detecting a blur by using said added pixel data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
